# Welcome

Restaurant Il Mercato, Lisbon

Texture, colour and pattern, it's what we do best and at Newmor the options are endless. We specialise in commercial quality, wide-width fabric-backed vinyl wallcoverings which are both durable and beautiful. All of our products are designed and made in the UK.

In this booklet you will find information about our digitally printed wallcoverings and see photos of completed projects.

# ABOUT US

Newmor Group was started in 1967 by John Morris and is owned and run to this day by his two grandsons. Our facilities are based in Welshpool - a small picturesque town in Wales, UK. We use traditional manufacturing techniques, alongside cutting-edge new technology which allows us to bring you the best in design and quality.

We have offices in the UK, Poland, Germany, Dubai, Singapore and Hong Kong, further supported by a well established international distributor network. We are currently operating in over 70 countries worldwide. We have supplied thousands of hotel groups, interior designers, architects, retailers and leisure groups with our wallcoverings for projects large and small, all over the world.

## OUR WALLCOVERINGS

Our commercial quality, fabric-backed vinyl print material has been specially designed to provide the best base for digital printing. Excellent colour saturation, sharp lines, fine text quality and superior durability, without the need for coating.

We also stock thousands of designs in a huge variety of textures, colours and metallics which are perfect for creating stunning bespoke effects when used as a digital print base.

All of our wallcoverings are fire rated, wipeable and contain an active fungicide. We design and manufacture all of our wallcoverings in the UK.

# Newmor Custom

Newmor Custom is a range of trend-led wallcoverings, designed in-house, which can be recoloured, rescaled and printed onto any of our wallcoverings including textures, metallics and window films. We launch new collections quarterly. See the full selection and order samples online.

Created exclusively for us by established designers and artists. Our current designers include fashion designer and artist, Iona Crawford, weaver and colour consultant, Ptolemy Mann and artist, Stephen Walter. We introduce new designers regularly. See our website for all of our designs and sign up to receive our newsletter for updates.

# DESIGN

Our in-house design department use traditional techniques alongside cutting edge new technology to bring you the best in design. From intricate hand-painted landscapes and hand drawn botanicals to bright, bold large scale geometrics we have something for every space. We can also work to a brief, to create a bespoke design especially for your project.

# WINDOW FILM

11

Floral Geo, printed on clear film

## Clear film

Sharp, vibrant, bespoke window film which is as clear as the glass it's applied to. Print company branding and bespoke designs, plus retain a level of privacy.

## Frosted film

An etched glass effect film which offers privacy as well as allowing light to pass through. Excellent print quality for bespoke graphics and branding.

## Opaque film

Complete privacy and superior print quality. This white film is often used for exterior graphics and branding and also in areas where privacy is key. Extremely durable, yet easily removed.

## Demiview film

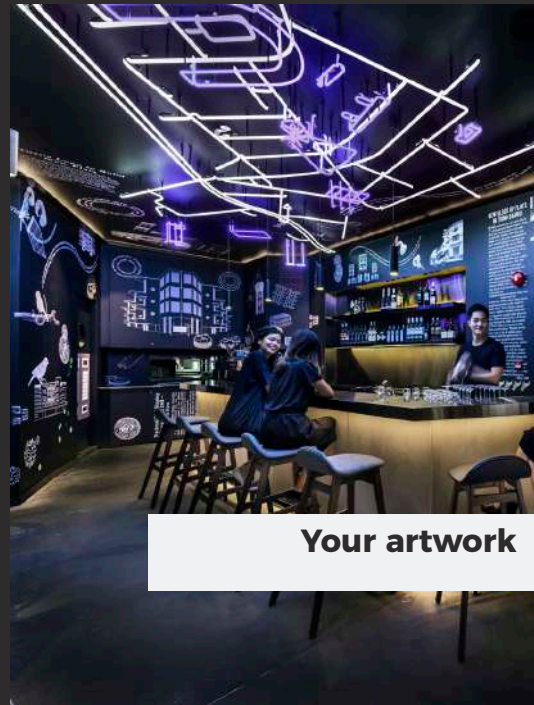

Demiview film allows for graphics to be seen from one side of the glass only. The self-adhesive panels have a design on one side while the other side the glass remains transparent.

# YOUR DESIGN OPTIONS

Whether it's your own artwork, an image from a stock image library, one of our own designs, or something our studio creates for you, our state-of-the-art facilities allow us to faithfully reproduce your design onto any of our wallcoverings or window films, including metallics and textures.

The process - All we need is a brief and your wall dimensions. Once you are happy with the concept design we will aim to send you samples within three to five days, and once these are approved your order will be dispatched within 7-10 days. We print using UV inks which are durable and wipeable, and do not require a protective coating.
