Playful Layers

Who said that avant-garde work couldn't be created from the classics? At 3Tintas we like to look beyond convention. Those boundaries between what is allowed and what is not are not part of our makeup. This is why, in our new collection we have selected some of the most iconic designs in the world of wallpaper (Toiles, Damasks, Florals, Geometrics...) and we have turned them around, through eclectic and unexpected mixing, because we want to offer an unusual, unique and different vision.

The world celebrates throwing out the classics, but we turn them around. Are you in?
